

Nephropathology and Transplantation Pre-Congress Meeting

September 8, 2007, Saturday

from 08:00 to 17:00

Istanbul Convention & Exhibition Centre

Session One

Hereditary Nephropathies

Chairpersons: A. Fogo (USA), L. Bostad (Norway)

Overview of Sclerotic Glomerular Lesions – Inherited, Primary Idiopathic and Secondary Causes

A. Fogo (USA)

A New Taxonomy of Podocytopathies

L. Barisoni (USA)

Genotype-Phenotype Correlation in Alport Syndrome and Benign Familial Hematuria

A. Vizjak (Slovenia)

Thin Basement Membrane: “Disease”, A Lesion or Both?

H. Liapis (USA)

Kidney Involvement in Fabry Disease

L. Bostad (Norway)

Session Two

Steen Olsen Memorial Symposium: Current Issues in Nephropathology

Chairpersons: J. A. Bruijn (Netherlands), N. Marcussen (Denmark), I. Kilicaslan (Turkey)

Advances in ANCA Vasculitis and Glomerulonephritis

J. C. Jennette (USA)

Dense Deposit Disease is Not a Subtype of Membranoproliferative Glomerulonephritis - Experience of International Study Group

F. Ferrario (Italy)

Experimental Chronic Nephropathy

N. Marcussen (Denmark)

Experience on Lupus Nephritis of a Reference Center in Turkey

Y. Ozluk (Turkey), I. Kilicaslan (Turkey)

Thrombotic Microangiopathy in Renal Allograft

V. Nickleit (USA)

Session Three

Comprehensive Review of Polyomavirus Nephropathy

Chairpersons: M. M. Mihatsch (Switzerland), V. Nickleit (USA)

The Virus and the Viral Infection of the Kidney

H. H. Hirsch (Switzerland)

Polyomavirus Nephropathy

V. Nickleit (USA)

The Decoy Cell (Including a Diagnostic Quiz)

L. Bubendorf (Switzerland)

Comparison of Polyomavirus with other Viral Infections of the Transplant

R. B. Colvin (USA)
